Background Information

Active abortion restrictions by state

Access to abortion in the U.S. depends on where you live. Increasingly, much of the South has become a legal-abortion desert.

■ Total ban ■ 6 weeks ■ 12-15 weeks ■ 18-22 weeks ■ 24 weeks ■ No cut-off

Pending or blocked legislation is not shown. Waiting period and telemedicine data from Kaiser Family Foundation and all other data from Guttmacher Institute and The Fuller Project reporting as of Oct. 9, 2024.

Roe v. Wade

Overtured in June 2024 in Dobbs v. Jackson Women's Health Organization.

1

Fluctuation

Since June, state abortion laws have fluctuated with states experiencing a total abortion ban, regardless of medical necessity.

2

Abortion Denial

In these states, women have already been denied life-saving abortion access, and often go into septic shock or are forced to travel out-of-state to receive adequate care.

Why This Doesn't Work: Religion: Yes

In Summary

1

Our Hypothesis

Some of our predictions were correct, some were inconclusive. Overall, the demographic that had gone through the largest shift throughout the years was sex.

2

Real-World Application

Although the overwhelming consensus of this data was “yes,” there are still women being denied abortion access across the country.

3

Question:

What other demographic information do you all think would be worth looking into regarding this question?
