EDUCATION

University of Massachusetts Amherst

Amherst, MA | Sept 2022 – May 2026

Bachelor of Science in Managerial Economics; Public Interest Technology (PIT) Certificate

GPA: 3.9 | Dean's List All Semesters | Chancellor Scholarship Recipient | Field Scholar Award

Relevant Coursework: AI in Economics, Thinking in the Age of AI, Economics in the Age of Big Data, Health Economics, Public Interest Technology, Economics of Contemporary Information Technology

RELEVANT EXPERIENCE

Dean's Student Advisory Council (DSAC) — Student Representative

Amherst, MA | Sept 2023 – Present

- Bridge between students and college leadership, engaging with the Dean and Associate Dean to surface and address student concerns across Social and Behavioral Sciences; drive outreach campaigns to attract students to the social sciences and expand educational and work experience opportunities across the college community.

Teaching Assistant

Amherst, MA | Sept 2025 – Present

Economics of Contemporary Information Technology

Jan 2026 – Present

- Elevated delivery of a 20-student course by curating 10+ supplemental videos across 6 modules, administering attendance tracking, and offering informed perspectives during lecture discussions.

First Year Seminar

Sept 2025 – Dec 2025

- Co-led a weekly seminar for 20 first-year students, designing interactive lessons on study skills, time management, and campus navigation.
- Designed and delivered a workshop on ethical AI use that covered algorithmic attention traps, academic integrity, and responsible prompting, thus, translating technical AI concepts for non-specialist audiences, a skill directly applicable to compliance communication.

Intern — Sol's ARC

Mumbai, India | July 2025 – Aug 2025

- Co-authored pilot program progress reports synthesizing systemic barriers, data gaps, and funding models for scale; presented findings to state government stakeholders.

UMass Student Government Association (SGA)

Amherst, MA | Sept 2022 – May 2024

Undersecretary of Health and Wellbeing

Nov 2023 – May 2024

- Spearheaded 5+ campus wellbeing initiatives through SGA policy proposals and partnerships with health offices.
- Coordinated with 6+ health and wellbeing organizations across campus to strengthen student support infrastructure.
- Collected, cleaned, and analyzed survey data from 100+ students; presented recommendations that directly informed campus policy.

Research Assistant

Amherst, MA | June 2023 – Sept 2023

- Conducted and validated large-scale hospital data collection supporting research by faculty at Carnegie Mellon, Harvard, and Stanford on the impact of Paid Family and Medical Leave (PFML) policies on patient outcomes nationwide.

PROJECTS

AI & the Future of Oncology R&D

Dec 2025

- Produced a 7-page industry report and 12-slide presentation analyzing GenAI's economic impact on oncology pharmaceutical R&D that covered labor market shifts, algorithmic bias risks, and data governance frameworks.
- Used LLMs (ChatGPT, NotebookLM) iteratively as research assistants to enhance analytical depth; coded custom data visualizations in R (ggplot2) drawing on ClinicalTrials.gov and FDA datasets.

Worker Incentive Field Experiment

Dec 2025

- Designed and executed a natural field experiment on Prolific (n=40) using Qualtrics to test piece-rate vs. flat-rate contracts on worker output quality and quantity.
- Collected, cleaned, and analyzed response data in Excel using t-tests and OLS regression controlling for demographic variables — piece-rate incentives raised output by ~1.4 words (p=0.029) with no quality trade-off.

Demographic Determinants of Abortion Opinion

Dec 2024

- Analyzed 50+ years of GSS survey data in R (tidyverse, ggplot2, dplyr), joining and aggregating across demographic dimensions to produce longitudinal stacked area trend visualizations.
- Identified sex as the most significant demographic predictor of abortion opinion over time; contextualized findings against post-Dobbs state policy shifts.

SKILLS

Technical: Microsoft Excel & Access (t-tests, OLS regression, pivot tables), R (tidyverse, ggplot2, dplyr), SAS, Qualtrics, Canva

Familiar with: Generative AI tools (Claude, ChatGPT, NotebookLM); ethical AI frameworks and governance

Languages: English (Fluent), Marathi (Fluent), Hindi (Fluent)
